

Paper ID	Title
5162	MAIEVC: A Multimodal Framework for Detecting AI-Driven Phishing Emails and Preventing Visual CAPTCHA Bypass Attacks
5163	BanglaHumorBERT (BH-BERT): A Domain-Adaptive Transformer Approach to Context-Aware Humor Detection in Bengali Language Processing
5173	An Explainable Hybrid Ensemble Framework with FT-Transformer for Multi-Class Thyroid Disease Detection
5176	A Word-Level Bangla Sign Language Classification Using Deep Learning Techniques
5179	ForenSynth: A Dual-Stream Wavelet-Spatial Network with Joint Multi-Task Learning for AI-Generated Image Detection and Generator Attribution
5187	Entropy-Gated Semi-Supervised Learning for Gastrointestinal Endoscopy Classification with Uncertainty Decomposition
5198	An Interpretable EfficientNetB2 Transfer Learning Framework for Early Blindness Detection Through Retinal Fundus Image Analysis
5200	Multi-Class DNS Threat Detection with BiLSTM and Additive Attention under Extreme Class Imbalance
5228	A Time-Normalized Volatility Measure for Loneliness Expression in Irregular Social Media Data
5232	A Modular Zero-Shot Framework for Multi-Domain Medical Diagnosis via MobileSAM and BiomedCLIP
5237	VAE-Augmented Multi-Model Ensemble with Patient Similarity Network and SHAP Explainability for Accurate Asthma Prediction
5254	Quantum-Enhanced Multimodal Emotion Recognition via Cross-Modal Entanglement and Hybrid Transfer Learning
5259	Reducing Hallucination in LLM-Based Competitor Intelligence Using Sentiment-Aware RAG on Product Hunt Data
5274	BanglaGovRAG: A Retrieval-Augmented Generation Framework for Legal and Administrative Question Answering in Low-Resource Multilingual Settings
5278	A Hybrid Explainable AI Framework for Concurrent Earthquake Magnitude Estimation and Severity Classification
5282	DNS Threat Detection Using Character-Level Convolutional Neural Networks: A Multi-Class Classification Approach
5283	An Isolator-based Compact Four-element MIMO Antenna with Enhanced Isolation for 28 GHz Millimeter-Wave 5G System
5287	Margins for the Messy: Transformer-Driven Recognition of Unfiltered Bangla Handwriting Through SimMIM-SwinV2-AdaFace Integration
5289	CrossEcomPack: Cross-Domain Package Localization for Low-Resource E-Commerce Logistics
5291	An Adaptive and Intelligent Ensemble Framework for Efficient Sudoku Solving: Integrating Classical CSP Algorithms
5292	A Hybrid Feature Selection and Ensemble Machine Learning Framework for Predicting Low Birth Weight
5295	BANGLAMemo: A Transformer-Based Multimodal Framework for Bengali Emotion Recognition
5296	Predictive Reinforcement Learning for Smart Grid Peak Shaving: A Comparative Analysis of the Impact of Forecasting on RL Performance
5299	IoT-Enabled Intelligent Energy Management Systems: A Comprehensive Review of Smart Sensing, Cyber-Physical Integration, and AI-Based Optimization
5305	An IoT-Driven Framework for Earthquake Forecasting Using Satellite Imagery, Machine Learning, and Sensor Data
5308	AI-Augmented Telemedicine Adoption in Bangladesh: An Extended TOE Framework with ANN Validation
5322	Machine Learning for Stock Price Prediction: A Systematic Review of Reviews
5328	A Feature Fusion Hybrid Deep Neural Network Framework for Aquaculture Water Quality Assessment with Explainable AI

List of Final Accepted and Registered Papers

5329	Fair-Cost Active Learning Under Temporal Drift for Bank Account Fraud Detection
5335	DenseEf: An Ensemble Deep Learning model for Brain Tumor Classification using MRI
5339	Efficient Rice Leaf Disease Classification via MobileNetV2 Transfer Learning with Structured Pruning and Post-Training INT8 Quantization
5355	Probe-Reliability and Architectural Compensation in CNN Channel Pruning
5363	Getting the Joke: Stacking Diverse Transformers for Humor Intensity Regression in Edited News Headlines
5366	A Multimodal Freshwater Fish Image Dataset with Nutritional Metadata for Computer Vision-Based Species Recognition in Bangladesh
5376	A Dual-Branch CNN with Squeeze-and-Excitation Attention for EEG-Based Alzheimer's Disease Detection Using Time-Frequency Feature Fusion
5381	Time-Aware and Explainable Hybrid Ensemble Learning for PM10 Prediction Using Meteorological and Lag-Based Features
5382	EfficientNet-B0 for Automated Budgerigar Disease Classification and Comparative Study of Transfer Learning Strategies
5385	An Explainable Hybrid Machine Learning Framework for Stroke Risk Prediction
5388	Uncertainty-Calibrated Learning Analytics for Learner Risk Support: Selective Prediction and Human-in-the-Loop Triage Using OULAD
5394	Robust Clinical Diabetes Prediction Framework Using Uncertainty-Aware Ensemble Learning with CatBoost
5410	An Efficient MaxViT based multi-sequence framework for Brain Tumor Classification using XAI
5423	A Machine Learning-Driven Framework for Time Series-Based Forecasting of Energy Consumption
5433	When Graphs Mislead: Diagnosing Over-smoothing in Spatial GNNs for Childhood Pneumonia Prediction in Bangladesh
5438	CNN-BiGRU: A Hybrid Deep Learning Architecture for Joint SOC and SOH Estimation in Lithium-Ion Batteries
5440	From Single-QP to Mixed-QP: CNN-Based CTU Partition Prediction for Efficient VVC Encoding
5446	Experimental Evaluation of IEEE 802.11ah Signal Strength and Coverage with an On-Demand Energy-Efficient Communication Algorithm for Wildlife Monitoring Networks
5451	IoT-Based Real-Time Water Quality Monitoring System for Smart Aquaculture
5454	Vendor-Independent Biometric IoT Attendance Using Reverse-Engineered ZKTeco ADMS and Blockchain Audit
5463	TriF2R-Net: Multi-Scale Attention Based Triple Feature Fusion Residual Network for Gastrointestinal Endoscopic Image Classification
5468	BrainTD-Net: An Enhanced YOLO-Based Framework with Hybrid Attention for Brain Tumor Detection in MRI
5472	An Edge AI and Big Data Driven Framework for Real Time Plastic Waste Classification and Optimized Collection Routing in Smart Cities
5473	An Explainable Transformer Framework for Medium-Range Weather Forecasting and Data-Driven Crop Cultivation Planning in Bangladesh
5479	Uncertainty-Aware Artificial Intelligence and Optimization for Ocean Health, Fishing Behavior, and Blue Economy
5484	A Position-Aware Genetic Algorithm for Ordered Subject-Choice List Recommendation in University Admissions
